-

Education

London college Port-Louis

Formation

"Web-developer"- wisdomInTech Quatre-Bornes | 02/2022 - 01/2024

Some of the projects i worked on :

Resort One

Built a high-performance headless website using Gatsby, MUI, and Drupal, delivering seamless content integrations and optimizing site speed to improve user engagement.

Resort Two

Developed a scalable, maintainable headless architecture with Gatsby, MUI, and Drupal, improving editor efficiency and site maintainability.

Hotel Website

Created a modern headless platform with Gatsby, MUI, and Drupal, enhancing performance and empowering content teams with flexible editing tools.

Bank Showcase Website

Engineered a Next.js headless front-end with MUI, integrating a CMS for dynamic, real-time content delivery and improved page load speeds.

Auto Parts Retailing Platform

Delivered a modern React.js application with a MongoDB backend and Tailwind CSS, ensuring a responsive, user-friendly experience for B2B customers.

Milestones Showcase Website

Implemented interactive visual experiences with Three.js and jQuery, supported by a Symfony-based CMS for easy content updates.

HTML Email Campaigns

Developed responsive, cross-client compatible HTML email templates, maintaining brand consistency across devices.

Professional Food Retail - Backend Interface

Contributed to a business workflow application using jQuery for dynamic interface interactions, enhancing data management efficiency.

Professional Food Retail - Frontend Interface

Enhanced and maintained an e-commerce platform with jQuery-driven components, improving user navigation and product discovery.

Baby Hygiene Retail Platform

Managed and updated e-commerce product content using Prestashop CMS, ensuring accurate inventory and promotions.

HTML Themes

Built and customized responsive themes using HTML, Sass, and jQuery, ensuring cross-browser compatibility and optimized user experience.

Resort Drupal Front-End

Implemented and maintained a Drupal website front-end with jQuery and Sass, supporting brand identity and consistent UX.

Bank Showcase Drupal Site

Developed and maintained a Drupal-based website using jQuery and Sass, improving editor workflows and front-end consistency.

Real Estate Platform

Customized and optimized a Drupal theme with jQuery and Sass, improving site performance and scalability.

Government Portal

Supported Drupal web builds with jQuery and Sass to improve content editing and accessibility for government stakeholders.

Employee Management Sites

Developed and maintained WordPress websites with Elementor and jQuery, delivering flexible, reusable page builder solutions.

Medical Showcase Website

Customized WordPress Elementor themes with jQuery, ensuring brand consistency and responsive layouts.

Airbnb-Style Real Estate Platform

Built and maintained WordPress Elementor websites with interactive jQuery features, enhancing property browsing experience.

Freelance Missions

Enterprise ERP system

Developed a full functional multi-level management system to efficiently allocated business resources and task

Doctor relationship react native app

Developed a react native app to easily match patient with doctors for home visits

Personal Projects

Personal Portfolio

Designed and implemented a portfolio website using Next.js, ShadCN UI, and Tailwind CSS, showcasing advanced component-driven architecture and personal projects.

Vans Beauty

Developed a promotional website using Next.js, ShadCN UI, and Tailwind CSS, prioritizing aesthetic consistency and performance.

Mira tracker

Built a feature-rich headless web application using Next.js, ShadCN UI, Tailwind CSS, and Supabase, enabling dynamic data handling and modern user interactions.
